AC2010

God came to save the world. God calls you to participate in that great mission. May 2010 be the year we make contact. Make contact with the broken and needy in our neighborhoods and communities. Make contact with families in need of hope. Make contact with people of means and influence, sharing with them the good news of a people infused with the power of God to make the world a better, kinder place – a place of blessing. Make contact with pushers and users, the abused and abusers, and dwell with them long enough for us all to experience respect, care, understanding, truth, righteousness and love. Let us no longer insulate but infiltrate.

North Central Conference Churches — Let's make contact — there's no "ap" for that!
